

Accessibility Conformance Report

Revised Section 508 Edition
(Based on VPAT® Version 2.5Rev)

April 27, 2026

Product Information

Name of Product/Version: eQube®-BI

Report Date: March 18, 2026

Contact Information: shilpa@1eQ.com

Product Description:

eQube-BI is a modern and AI enabled Augmented Business Intelligence platform that democratizes analytics with governance. It empowers users across the organization to explore live, enterprise-wide data whenever they need it, while consistently enforcing the security and access rules of underlying enterprise applications.

Evaluation Methods Used:

- Automated scanning for accessibility issues
- Manual keyboard-only navigation testing
- Screen reader compatibility testing
- Color contrast verification
- Validation of programmatic accessibility including labels, roles, states and values.
- Review of help documentation and support materials for accessibility considerations.

“Voluntary Product Accessibility Template” and “VPAT” are registered service marks of the Information Technology Industry Council (ITI).
